

Red Tag Clearance Event

For over 30 years, Midwest Transit Equipment has provided new and pre-owned child care buses for some of the largest child care facilities in the nation. We are committed to satisfying our customers by offering the best products, the best service and the best value in the bus industry. From leasing and financing to parts and nationwide service, we're here to help you at every stage of the process.

The National Transportation Safety Board has declared 15 passenger vans unsafe. To research this issue further, visit www.nhtsa.gov. Midwest Transit Equipment is devoted to helping you replace these vehicles with child care buses. These single rear wheel buses are very easy to drive due to the narrow width, lower top and shorter body.

We have a large selection of new and used child care buses priced to sell quickly. Whether you need a 9 passenger or a 14 passenger bus, we can help you solve your transportation needs.

The bottom line: This bus is designed for the child care provider. If you can drive a van, you can drive this bus.

Bus shown with optional graphics package & wheel covers
