

ARCTIC XTREME

Arctic Xtreme/Plus complete formula protects and lubricates your engine even as temperatures drop.

Arctic Xtreme treats at the rate of 1 oz PFS per 5 gallons of fuel, OR

- 12 oz bottle treats 60 gallons of fuel
- 64 oz bottle treats 320 gallons of fuel
- 5 gallon bucket treats 3,200 gallons of fuel
- 55 gallon drum treats 35,200 gallons of fuel
- 275 gallon tote treats 176,000 gallons of fuel

WHY USE PFS ARCTIC XTREME?

Arctic Xtreme Winter Diesel Formula is the Highest Quality Winter Fuel Additive Package on the market today using the latest technology and chemistry to achieve the absolute highest standards of fuel quality. Continuous use of Arctic Xtreme will not only give you the ultimate cold weather protection but is a total fuel system care product treating the entire fuel system plus keep it clean indefinitely. It also increases lubricity up to 25% and reduces your particulate output up to 75% reducing re-gen frequency dramatically. This is only a few of the many benefits of using our complete package additives. Use PFS Power Plus for summer months and Arctic Xtreme Antigel for Cold Weather.
