## WHY USE PFS POWER PLUS?

Power Plus Summer Diesel Formula is the Highest Quality Fuel Additive Package available today. We use the Latest technology and chemistry helping you achieve the absolute highest standards of fuel quality. Continuous use of our Diesel Packages will Clean the entire fuel system and keep it clean indefinitely. It also increases lubricity up to 25% and reduces your particulate output by up to 75% reducing re-gen frequency dramatically. This is only a few of the many benefits of using our complete package additives. Use PFS Power Plus for summer months and Arctic Xtreme for Winter.
